BASIC REFRIGERATION APPLIED TO AIR CONDITIONING SERVICE PROGRAM

Steve Mohr will present this 2-day program on basic refrigeration applied to air conditioning, which is designed for service technicians, regardless of experience. This is an in-depth program involving R410A, R-22, heat transfer and fluid flow throughout the refrigeration circuits, applicable to new service technicians or as a refresher for the more experienced.

Here is the opportunity to add properly trained technicians to your staff. Train your service personnel now to be prepared and productive when the air conditioning season starts. **This course is primarily designed for apprentice or beginner technicians.**

Limited to 25 Registrants

OUR INSTRUCTOR: Steve Mohr began his HVAC career in 1978 and became a trainer in 1992. The students' participation and response to his hands-on training has been fantastic and adds to Steve's excitement as he pushes forward to offer training second to none.

THE 2-DAY BASIC REFRIGERATION APPLIED TO AIR CONDITIONING SERVICE PROGRAM WILL COVER:

- * Heat Transfer and Fluid Flow
- * R-22
- * Refrigeration Circuit Basics
- * R410A

PAYMENT POLICY: Payment can be made by check or credit card. Visa, MasterCard or Discover information may be faxed to PPMCSA at (717) 902-0290.

CANCELLATION POLICY: Cancellations will be accepted up to 3 days prior to the program date. No refund will be made unless the cancellation is **received more than 3 days prior to the scheduled program.**

CERTIFICATE OF TRAINING: Will be awarded to each student who completes the course and passes the examination. A passing grade is also worth **8 CEU's** towards NORA re-certification.

OVERNIGHT ACCOMMODATIONS: Lodging, transportation and meals (other than lunch) are the responsibility of the student.
